Fusefy
For Pragmatic AI

AIaaS - Turning intelligence to actions

Launch Agentic AI solutions in Days, Not Months, On Your Platforms with AI Adoption As Service (AIaaS)

Turn your ideas into secure, explainable AI agents and workflows inside Jira—no new tools, just faster go-to-market with the platforms you already trust.

16 +Hours	2+ Weeks	1+ month production launch

AI MODERNIZATION

✗ Ditch rigid, expensive RPA tools and subscriptions.

✗ Stop siloed, manual workflows.

✗ Uplift your OCR engines AI with latest GenAI models.

✗ End vendor lock-in forever.

AGENTIC AI WORKFLOWS

✓ Goal-oriented AI automation

✓ Custom LLMs to Private → LLMs Proprietary data fuels your AI.

✓ Your AI, your workflows

✓ Your workflows adapt instantly

✓ Total control of your workflows.

3 STEPS FOR RAPID ENTERPRISE AI ADOPTION WITH ROI

A pragmatic, **no-hype** approach to help enterprises adopt AI efficiently and at scale.

FUSEFY AI IDEATION STUDIO

Seamlessly engage with business and identify high ROI use cases and build roadmap.

FUSEFY AI FOUNDRY

Build your ideas in any AI platform of your choice rapidly with state of art low-code models.

FUSEFY AI AUDIT SUITE

Continuously measure model performance, security and safety features to comply with regulatory and security standards.

OUR EXPERTISE

Verticals | **Categories**

HEALTHCARE
Streamlining patient care and administrative workflows.

FINANCE
Automating financial operations and enhancing security.

REAL ESTATE
Simplifying property management and client interactions.

LOGISTICS
Optimizing supply chains and tracking from end to end.

EDUCATION
Personalizing learning experiences and managing institutions.

HR
Improving employee lifecycle management and talent acquisition.

RETAIL & E-COMMERCE
Enhancing customer shopping experiences and inventory.

MANUFACTURING
Boosting production efficiency and quality control.

BI AGENT
Data-driven insights for decisions.

OUR AI MARKETPLACE

- Interview agent
- Claim reimbursement agent
- Teams Reminder Flow using Lists & Power Automate
- Automation platform n8n
- Order processing agent
- Data quality and Anomaly agent
- Onboarding agent

OUR EXPERTISE

Verticals | **Categories**

BI AGENTS

Delivering actionable insights from complex data sets.

VOICE AGENTS

Providing natural, conversational voice-based assistance.

CUSTOMER SUPPORT AGENTS

Resolving customer queries with speed and accuracy.

CLAIMS PROCESSING AGENTS

Automating the validation and processing of claims.

CRM AGENTS

Managing customer relationships and sales pipelines.

KNOWLEDGE SEARCH AGENTS

Finding and retrieving relevant information instantly.

HCM AGENTS

Streamlining human capital management processes.

ERP AGENTS

Integrating and managing core business operations.

LLM FINE-TUNING

Replacing vendor tools and SaaS subscriptions for RPA, OCR, and automation with custom Agentic AI workflows..

OUR AI MARKETPLACE

- ✓ Interview agent
- ✓ Claim reimbursement agent
- ✓ Teams Reminder Flow using Lists & Power Automate
- ✓ Automation platform n8n
- ✓ Order processing agent
- ✓ Data quality and Anomaly agent
- ✓ Onboarding agent

Our solution is **platform and language agnostic**, supporting a vast ecosystem of AI tools and services. Plus, you can **bring your own platform** — we'll integrate it seamlessly.

BRING YOUR OWN APPLICATION

GREEN FIELD (NEW)
Supports new application development

BROWN FIELD (OLD)
Bring Agentic AI capabilities to existing apps

MULTI-LANG CAPABILITIES
Supports various languages and tools

Compare *Fusefy* with AI tools:

Feature	Fusefy (AI Adoption Platform)	App-Gen Tools (Lovable AI, Replit)	Code-Gen Tools (Cursor, GitHub Copilot, Claude)
Bring Your Own Platform	✅ Seamlessly fits into any tech stack	✅ Rapid app prototyping in-platform	✅ AI-powered code assistance in IDE
End-to-End Custom Integration	✅ Seamlessly integrates the full lifecycle	⚠️ Supports app export & limited integration	❌ Focused on coding only
From Ideation to Use Case	✅ Converts ideas into production-ready solutions	✅ Rapid prototyping from idea to app demo	❌ Only generates code snippets
ROI Projection	✅ Built-in ROI & TCO analysis	⚠️ External ROI insights	❌ Focused on coding; no business metrics
Project Plan generation	✅ Auto roadmaps & milestones	⚠️ Planning via external tools	❌ No built-in planning or roadmap tools
Continuous Monitoring & Optimization	✅ AI Audit Suite for tracking & improvement	⚠️ Limited monitoring for prototypes	❌ No runtime or performance tracking
Built-in Compliance & Governance	✅ Security, explainability, regulatory checks	⚠️ Compliance managed externally	❌ No enterprise compliance features
Dedicated Customer Support	✅ Full adoption support from idea to rollout	⚠️ Community/forum support	❌ Limited support / AI-driven only

MODERN DEPLOYMENT WORKFLOW

Select a step to see the details.

1. Discovery

2. ROI and Heatmap

3. Project Plan

4. Project Build

5. Audit Suite AI

Healthcare Privacy Disclosure →

1. DISCOVERY

Align stakeholders, capture business goals, and validate feasibility against system capabilities.

✓ Engage with business stakeholders to capture objectives, KPIs, and constraints.

✓ Ensure technical teams understand business impact.

✓ Compare requirements against current systems, identify dependencies, risks, and validate feasibility for technical implementation.

COMPLETE AUTOMATED FLOW

Discovery → ROI and Heatmap → Project Plan → Project Build → Audit Suite AI
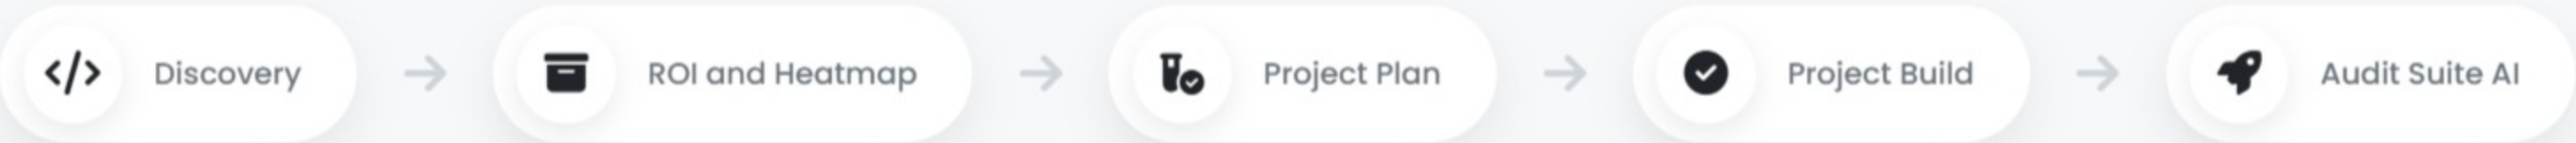

AGENT FEATURES

✓ Instant Reports: Generate reports and charts within seconds

✓ Natural Language → SQL: Conversational queries auto-converted to SQL

✓ Technical Flexibility: Edit, re-run, and save queries; download and email reports in PDF

✓ Advanced Reasoning: Detect anomalies, segment data, and uncover root causes automatically

BI Agent Demo →

BUSINESS VALUE

✓ For Business Teams: NLP-driven reports surface KPIs, insights, and trends for faster decisions

✓ For Data Engineers: Streamline complex queries and accelerate data analysis

✓ For Application Developers: Natively integrate agents into existing applications

FUSEFY AI

- Enables multi-process AI workflows ,Leverages internal & external data sources
- Human + AI-agent collaboration

STRATEGIC AI DELIVERY

- AI-driven architecture & workflows with Google AgentSpace, BigQuery, and BI integration.
- Seamless GCP deployment using IAM, VPC, Cloud Run, GKE with strong governance & compliance.

GCP IMPLEMENTATION

- Auto-generates compliant, testable GCP-ready code and pipelines with built-in logging/security.
- Leverages GCP with built-in governance, compliance, and security for a scalable AI ecosystem

INTELLIGENT AGENTS BUILT FOR BUSINESS OPERATIONS

Healthcare Agent
Medical Document Processing

- ✔ 65% faster documentation
- ✔ 90% accuracy in records
- ✔ 4x patient data processing

Onboarding Agent
Employee Onboarding Assistant

- ✔ 70% faster onboarding
- ✔ 45% reduced HR support
- ✔ 2x faster query resolution

Interview Agent
Recruitment Assistance

- ✔ 50% faster screening
- ✔ 85% auto-scheduling
- ✔ 3x recruiter productivity

Claim Reimbursement Agent
Claims Automation

- ✔ 40% faster processing
- ✔ 30% less manual review
- ✔ Improved audit quality

Purchase Order Agent
PO Processing Automation

- ✔ 60% less manual effort
- ✔ 95% data accuracy
- ✔ 3x cycle time speed-up

ACCELERATING RESPONSIBLE AI ADOPTION

EXPERIENCED FOUNDING TEAM

Over 100 years of collective expertise in AI, cybersecurity, and data governance.

END-TO-END AI SERVICES

Specializes in AI maturity assessments, roadmaps, and compliance for enterprise AI adoption.

INNOVATIVE FRAMEWORK

Powered by Emergere Tech, the parent company with expertise in AI, Data Analytics, Engineering, and BI.
